

# WCU-CSE

# SPECIAL LECTURE SERIES ON STOCHASTIC NUMERICAL METHODS 2010.9.1~

- Course Code : CSE7850
- Course Title : Stochastic Methods (스토케스틱수치해법)

Prof. **Dongbin Xiu**

(Dept. of CSE, Yonsei Univ. and  
Dept. of Mathematics, Purdue Univ., USA)

Prof. **Max Gunzburger**

(Dept. of CSE, Yonsei Univ. and  
Dept. of Scientific Computing, Florida State Univ., USA)

**Max D. Gunzburger**, Francis Eppes Distinguished Professor of Mathematics at Florida State University, He is an American mathematician and computational scientist affiliated with the Florida State interdisciplinary Department of Scientific Computing. He was the 2008 winner of the SIAM W.T. and Idalia Reid Prize in Mathematics. His seminal research contributions include flow control, finite element analysis, superconductivity and Voronoi tessellations. He has also made contributions in the areas of aerodynamics, materials, acoustics, climate change, groundwater, image processing and risk assessment.

**Monday 13:00~15:00**

**Wednesday 15:00~17:00**

**Friday 15:00~18:00**

**Place: ASTC # 516, Yonsei U. (첨단관 516호)**

**CSE Web: <http://cse.yonsei.ac.kr>**
